SADDLEBAG LID SPEAKER PODS

Patent Pending

Introducing the most cost effective rear speaker conversion for your modern bagger. By utilizing the factory saddlebag lids, these speakers will literally transform your bags into the ultimate sound system! Kicker's powerful KPS5250 2 ohm Speakers (refer to pg 18 for speaker specs) are wrapped in high quality Kuryakyn chrome & are angled towards the rider & feature a water-proof design for optimum sound quality & durability.

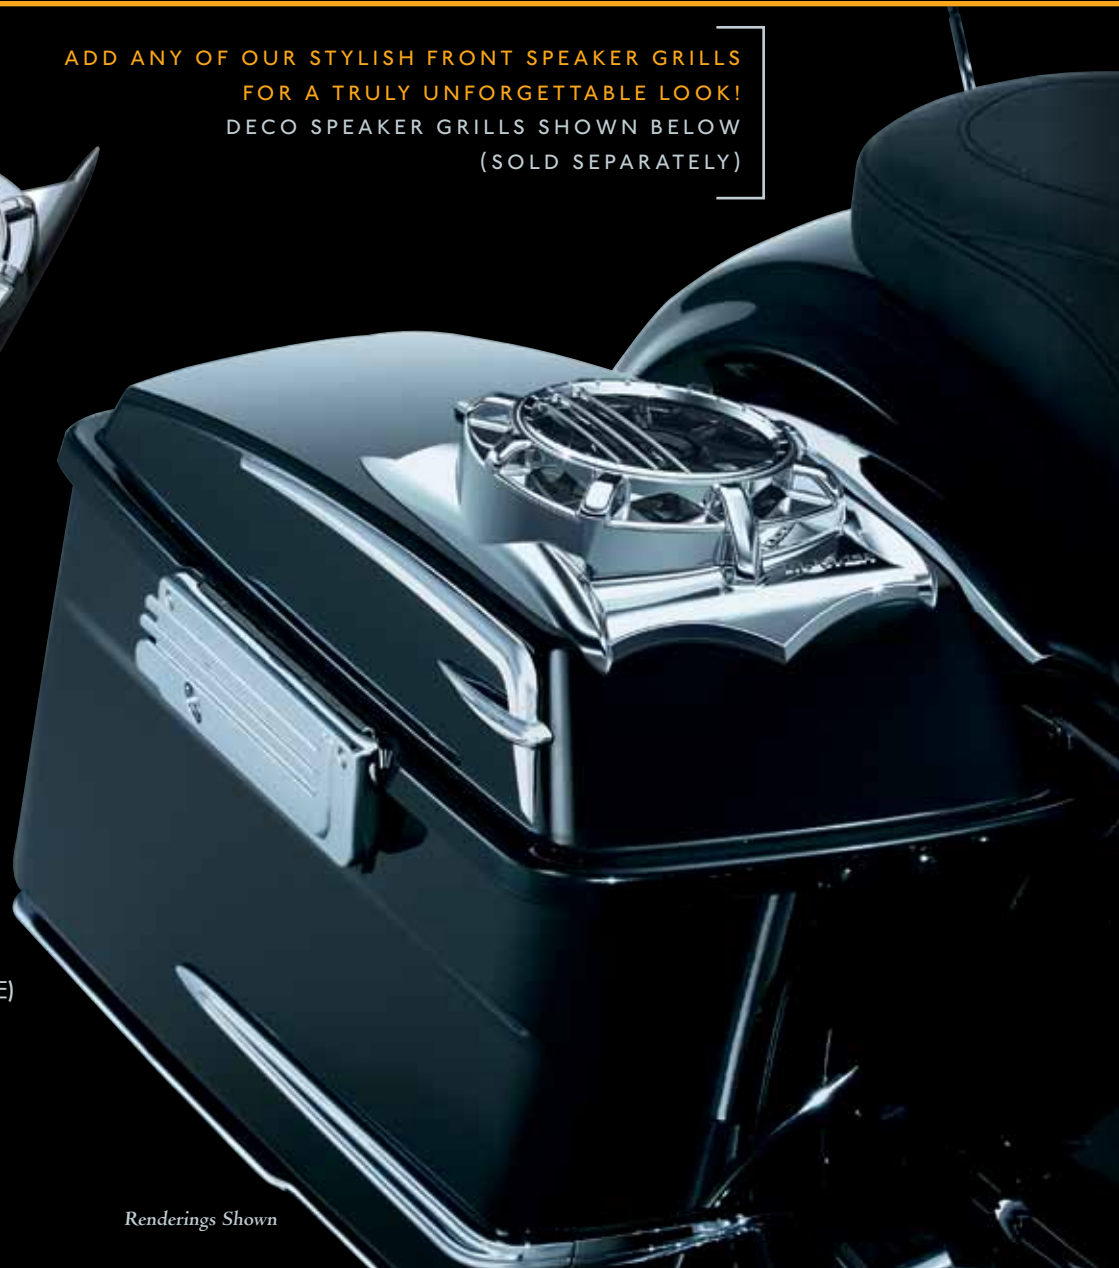

Kicker Amplifier & Wiring Harness (P/N 871) required for installation (sold separately - pg 18).

Fits: Saddlebag Lids on '06-'11 Electra Glides, Road Glides, & Street Glides (except '09-'11 FLHTCUTG, '10-'11 FLHXXX, '06-'09 FLHT Standard, '11 FLHXSE, '11 FLTRUSE)

872 | Saddlebag Lid Speaker Pods with 5 1/4" Speakers (pr) | \$279.99

Note: Requires cutting speaker hole in saddlebag lid. Storage space is not compromised.

Note: May work with other amplifier & Speaker combinations but additional wiring may be needed.

INJECTION MOLDED SADDLEBAG LIDS

WITH 6"x9" KICKER SPEAKERS Patent Pending

The wizards at Kuryakyn & Kicker have come up with a replacement saddlebag lid that will have your bagger rockin' like never before! Featuring high-tech, marine-grade 6" x 9" Kicker Speakers with separate mounted 3/4" tweeters & a dependable high pass cross-over for unbelievable sound. Chrome or Black waterproof speaker grills come on a black finish that's fully paintable - or add our Saddlebag Lid Covers (P/N 4117) for undeniable style. Speakers are covered with FrogzSkin® (Patent Pending) a protective screen designed to keep out water & debris & will not interfere with the quality of sound. These Saddlebag Lids are for riders who demand the ultimate in looks & function without sacrificing much storage.

Kicker Amplifier & Wiring Harness (P/N 871) required for installation (sold separately - pg 18).

NEVER BEFORE HAS A REPLACEMENT
SPEAKER SOUNDED SO GOOD!

KICKER® KPS5250 SPEAKERS FITS TRIKES

We don't simply use car audio speakers with a new sticker & call them bike speakers. These are the real deal & once you put them in you'll be blown away. These speakers are weather-proof & feature high-efficiency coaxials specifically created as fairing drop-ins on '96 & newer Harley touring motorcycles. Extremely powerful, these 2 & 4 ohm speakers are lighter than anything on the market. Leave the dull sounding, heavy speakers in the dark ages!

SPEAKER SPECS

- Woofer: 5.25"
- Tweeter: 3/4"
- Max Recommended Amp Power (Peak/RMS): 100W/50W
- Weight: 12.6 oz

KICKER® AUDIO AMP FITS TRIKES

This is a must have for anyone who demands the most from their motorcycle sound system & wants to add additional speakers. Featuring an ultra slim, compact design, this amp will mount directly to the top of your bike's factory radio & has the capability to produce the highest quality sound without over loading or drawing down your bikes charging system. Specially designed & optimized for Kicker Speakers.

- Max Power Output: 46 w/ch. X 4 @ 2 ohms, (20 Hz-20kHz), 10% THD + 100 W @ 1 ohm, (20Hz -100Hz), 10% THD
- Max Current Draw: 26 Amps at 13.8 Vdc
- Typical continuous current draw
- Wiring included for all Kicker P/N's & designed specifically for use with P/N's 872-875 & 877
- Mounts inside fairing on top of radio on Street Glides & Electra Glides
- Mounts on side of inside of fairing on Road Glide
- Included Wiring Harness is completely plug-&-play

Fits: '06-'11 Electra Glides, Road Glides, Street Glide, & Trikes (except '11 FLHXSE & '11 FLTRUSE)

871 | Kicker 4.1 DSP Amplifier (ea) | \$599.99

Note: Will not work with Medallion Gauges.

COVERS FOR INJECTION MOLDED SADDLEBAG SPEAKER LIDS

Patent Pending

Whether you're looking to add our Injection Molded Saddlebags with Speakers (P/N 873 and 878) & you're worried they won't match your paint job or if you simply want to protect your investment from boot scuffs & wear - these are the covers for you. The stylish design stretches right over the top of each saddlebag lid creating a unique look that looks great with any color bike. Each cover features cut outs for speakers & tweeters to ensure no sound loss while providing the utmost protection. Made from soft, matte finished black vinyl with a felt interior.

Fits: Designed to work with Kuryakyn Injection Molded Saddlebag Lids with 6"x9" Kicker Speakers (P/N 873 and 878)

4117 | Covers for Kuryakyn Saddlebag Lids with 6"x9" Speakers (pr) | \$79.99

GREAT LOOKS WITH AMAZING SOUND!

THE SOUND OF CHROME™

This system rocks! The 2nd Generation looks, performs, & sounds even better! No compromise here with the perfectly designed 3" main speakers with additional tweeters for full bodied sound. The weatherproof bullet housing has powerful built-in true 50 watt amplifier & includes a volume & on/off control switch. Convenient swivel adjustment gives you the freedom to position speakers in any direction you choose. With a full plug-&-play wiring harness, noise purifier & standard 3.5 mm jack, simply connect your iPod, MP3 player, satellite radio, personal CD player, etc. & ride on.

851	Fits: 1-1/4" Handlebars (set)	\$399.99
852	Fits: 1" Handlebars (set)	\$399.99

Note: Not suggested for use with FM/AM radios.

TUNE TRAPPER® HIDDEN ANTENNA FITS TRIKES

A hidden FM antenna that works! Mount it anywhere (in almost any vehicle, boat, RV or motorcycle) in any position, in steel or fiberglass; it's flexible, can be bent 10-20 degrees & works great inside H-D fairings! A full 1/2 wave helical dipole antenna, hand tuned to resonance with special instruments & requires no ground. Uses 95% braided shield cable for virtual elimination of EMI electrical noise caused by engines, fans, wipers, etc. These hand-tuned USA-made antennas require no power; your radio has all the preamp it needs built in, it's just looking for a properly tuned antenna to make it rock.

Fits: Electra Glides, Road Glides, Street Glides, & Trikes
(Overall length is 2' with a 2' cable)

853	Tune Trapper Hidden Antenna (ea)	\$39.99

FLEXIBLE ANTENNA YOU CAN
HIDE ALMOST ANYWHERE!

WWW.KURYAKYN.COM

866-277-9598

DUAL FUNCTION FLEXIBLE ANTENNAS

Big performance cut down to size! Enjoy all the range & clarity your AM, FM & CB radio offer without the mile-high stock antenna. This compact & flexible antenna is only 17" long & two versions are available depending on your bike model & mount. Each comes tuned for its specific mounting location so no calibration is needed. Your bike will look better, loads will strap on easier, & it won't be in your way!

Fits: '89-'11 Electra Glides, Road Glides, Street Glides, Tour Glides, & Trikes equipped with AM/FM radio &/or CB radio kits

865	Tour-Pak Mount (ea)	\$29.99
866	Frame Mount (ea)	\$29.99

866

SHORTY ANTENNAS

Shorty Antennas have long been known in the street rod market for their high-quality billet antennas & other accessories. The antennas look & work great for AM/FM reception on Electra Glides, Street Glides, Road Glides, & Trikes. They thread right onto the stock antenna mounting stud for a quick & easy installation.
